

Hurricane::DBo

```
classDiagram
    class HurricaneNet["Hurricane::Net"]
    class HurricaneEntity["Hurricane::Entity"]
    class HurricaneDBo["Hurricane::DBo"]
    HurricaneNet --|> HurricaneEntity
    HurricaneEntity --|> HurricaneDBo
```

The diagram illustrates a class hierarchy with three classes arranged vertically. At the bottom is the base class, Hurricane::Net, represented by a light gray box. Above it is Hurricane::Entity, and at the top is Hurricane::DBo, both in white boxes. Blue arrows point upwards from Hurricane::Net to Hurricane::Entity, and from Hurricane::Entity to Hurricane::DBo, indicating inheritance.
